

**[MIRAIT ONE Corporation]**  
**Demonstration experiment of “MIRAIT ONE Health Portal”**  
**as a Health & Productivity Management measure**

**We Create our own healthcare platform based on "KENKO MILEAGE" provided by NTT DOCOMO**  
**for the continuous exercise habit of employees**  
**and aiming to roll it out company-wide and fully introduce it to each group company**

From October 12, 2023, MIRAIT ONE Corporation (head office: Koto-ku, Tokyo; President and Chief Executive Officer: Toshiki Nakayama; "MIRAIT ONE") will implement a demonstration experiment to create the "MIRAIT ONE Health Portal" which is comprehensive healthcare platform recording vital signs and exercise habits, providing online health consultation.

This portal is based on NTT DOCOMO, INC. (DOCOMO)'s application "KENKO MILEAGE", and through this experiment conducting regular surveys, both companies will work together for building better services.

In the future, we aim to roll it out company-wide and fully introduce it to each group company.

While considering measures to utilize the smartphones carried by all employees, we recognized that the matching of MIRAIT ONE's in-house "health information platform" concept and the health application "KENKO MILEAGE" provided by DOCOMO. As a result, we decided to promote this as a collaborative measure.

"MIRAIT ONE Health Portal" will focus on everyday health including not only vital signs but also promotion of walking, exercise habits and activation of company health events. In addition, for future health improvement, we introduce the more functions of this portal such as "online dietary guidance", "online health consultation" and others covered by "KENKO MILEAGE".

DOCOMO plans to utilize this experience for further enhancement of service quality.

MIRAIT ONE announced its Health and Productivity Management Declaration last July, since then we have implemented various health measures, and certified as a 2023 Health & Productivity Management Outstanding Organization (Large Enterprise Category) in March this year. MIRAIT ONE uses this demonstration experiment as a driving force for all employees to promote health and productivity management and we are moving towards our goal, people-centric management.
