

[MIRAIT ONE Corporation]
**Renewal of DX Certification Designated by the Ministry of Economy,
Trade and Industry**

Major telecommunications construction company MIRAIT ONE Corporation (head office: Koto-ku, Tokyo; President and Chief Executive Officer: Toshiki Nakayama; "MIRAIT ONE") received renewed certification as a "DX Certified Business Operator" based on the DX Certification System established by the Ministry of Economy, Trade and Industry on June 1, 2023.

The DX Certification System is a system in which the national government certifies companies conforming to the basic matters under the Digital Governance Code based on the Act on Facilitation of Information Processing. The Digital Governance Code outlines the actions the Ministry of Economy, Trade and Industry requires corporate management to take such as the formulation and publication of a company's management vision based on social transformation brought about by digital technology to promote the company's voluntary initiatives related to DX, and MIRAIT ONE was certified as a "DX Certified Business Operator" in June 2021. Certification will continue from June 1, 2023 until May 31, 2025.

<Key Points in the renewal of certification>

Describes the progress of direction, strategy and tactics based on the management vision "MIRAIT ONE Group Vision 2030" related to the vision, business model, data insight management.

Based on the MIRAIT ONE Group Vision 2030, the MIRAIT ONE Group will promote DX and engage in resolving the issues faced by customers and society, and supporting regional revitalization, and contribute to the sustained development of customers and society as smart infrastructure provider.

< About MIRAIT ONE Corporation >

MIRAIT ONE Corporation was launched on July 1, 2022 through the integration of MIRAIT Holdings Corporation, MIRAIT Corporation, and MIRAIT Technologies Corporation. MIRAIT ONE has established “co-creating an exciting future through challenges and technology” as its purpose (significance of existence), and is engaged in the resolution of issues faced by customers and society and regional revitalization by promoting initiatives such as urban development and regional development, corporate DX and GX, green business and global business based on the technical capability cultivated until now in telecommunications facility construction and the civil engineering business.
