

**【MIRAIT ONE Corporation】****Announcing Endorsement of the Taskforce on Nature-Related Financial  
Disclosures (TNFD) Recommendations**

Major telecommunications construction company MIRAIT ONE Corporation (head office: Koto-ku, Tokyo; President and Chief Executive Officer: Toshiki Nakayama; "MIRAIT ONE") has announced its endorsement of the principles of the Taskforce on Nature-related Financial Disclosures (hereinafter, "TNFD")<sup>\*1</sup> in October 2024 and applied to join the TNFD Forum<sup>\*2</sup>, which supports the activities of the taskforce.

Under the purpose (mission) of "Co-creating an exciting future through challenges and technology," the MIRAIT ONE Group is promoting ESG management with the aim of contributing to the resolution of social issues and the realization of a sustainable society as a future implementation company.

In addition, we have long been implementing initiatives related to the conservation of the natural environment and biodiversity, such as climate change countermeasures by reducing GHG emissions, under the materiality of "realization of a decarbonized society through business activities" and "contribution to environmentally-friendly and resilient urban and regional development" among the nine materialities (material issues) of sustainability.

We will continue ahead to analyze the risks and opportunities that biodiversity and natural capital bring to our business, as well as promote further sustainability initiatives and related information disclosure.

<sup>\*1</sup> An international initiative established in June 2021 as a framework for non-financial information disclosure in the area of the environment.

<sup>\*2</sup> A group of stakeholders who support the TNFD discussions.

**<About MIRAIT ONE Corporation>**

MIRAIT ONE Corporation was launched on July 1, 2022 through the integration of MIRAIT Holdings Corporation, MIRAIT Corporation, and MIRAIT Technologies Corporation. MIRAIT ONE has established "co-creating an exciting future through challenges and technology" as its purpose (significance of existence),

and is engaged in the resolution of issues faced by customers and society and regional revitalization by promoting initiatives such as urban development and regional development, corporate DX and GX, green business and global business based on the technical capability cultivated until now in telecommunications facility construction and the civil engineering business.
