

【MIRAIT ONE Corporation】**MIRAIT ONE Launches “MY One Grid™” , a Cloud/On-Premises Integrated Managed Service**

MIRAIT ONE Corporation (head office: Minato-ku, Tokyo; President and Chief Executive Officer: Hidemune Sugahara; “MIRAIT ONE”), together with its group company Y2S Co., Ltd. (head Office: Minato-ku, Tokyo; Representative Directors: Yoko Ogawa, Kazuhiko Kitaoka; hereinafter, “Y2S”), will launch a cloud/on-premises integrated managed service “MY One Grid™” (*1) on April 23, 2026.

“MY One Grid™” is a one-stop service that supports the design, construction, operation, and maintenance of servers and network equipment at the time of implementation on any IT infrastructure, from on-premises to multi-cloud environments. Our nationwide onsite maintenance service structure enables us to provide services 24 hours a day, 365 days a year.

Having welcomed Y2S to the MIRAIT ONE Group in October 2025, we are now able to provide an operation monitoring service for the cloud environment as a solution, which could not be offered before. By combining Y2S’s cloud environment operation monitoring service with MIRAIT ONE’s on-premises environment operation monitoring service and nationwide onsite maintenance service structure, we offer a unique one-stop service unlike any other.

“MY One Grid™” is a one-stop solution to various issues that customers face, such as the “wish to ensure a smooth implementation from installation to operation without worrying about resources (people and systems),” “need to always keep the cloud environment up-to-date and secure,” and “prompt support, day or night, when encountering a system failure.”

MIRAIT ONE will continue to support customers’ AI and DX promotion efforts and contribute to resolving customers’ challenges by providing diverse solutions as an “infrastructure and on-site DX implementation partner,” linking operational technology (OT) and digital technology (IT).

*1: TM (™) is an abbreviation for “Trademark” and is a mark attached to the name of a product for which trademark registration is pending.

<About MIRAIT ONE Corporation>

Founded in 1946, MIRAIT ONE is a company engaged in building and maintaining various types of social infrastructure with a history spanning approximately 80 years. Based on the wealth of experience and technical expertise we have accumulated in the construction of telecommunications infrastructure, in recent years we have been creating and maintaining society's infrastructure in the energy and transportation fields. By leveraging our technologies in communications, electricity, architecture, civil engineering and other fields, we are working on urban and regional development that connects to the future, including implementing DX in communities and businesses and promoting the use of green energy. Based on our purpose of "co-creating an exciting future through challenges and technology," we aim to create new value that enriches people's lives and realize a sustainable society.
